

BETSY PETERSON

KITCHEN & BATH
DESIGN CONSULTANT

One of the bright young stars of the showroom design and sales team, Betsy "Beckie" Peterson came to Case Supply in 2007 by way of a boutique interiors firm.

Prior to her kitchen and bath career, Betsy enjoyed success in the Central Florida tile and natural stone industry as an outside sales consultant. Some of her most notable projects were a car dealership in Indianapolis, Indiana, a Ritz Carlton in the Turks and Caicos Islands and a personal residence that was featured during the 2008 International Builders Show.

Betsy's love of interior finishes was cultivated during her post-graduate education where she earned an associates degree in studio arts. So far at Case Supply, Betsy has successfully completed the Tony Iannetone (CKD/CBD) kitchen school; and attended a number of product information seminars hosted by manufacturer's representatives.

A newlywed, Betsy likes to entertain with her husband, Corey, in their new house, enjoys camping and even creates and sells her own distinctive line of beaded jewelry.
