

DARLENE CUSHMAN

KITCHEN & BATH
DESIGN SPECIALIST

Darlene was originally hired to do administrative work in one of Case Supply's sister companies: Great Central Distributing. Great Central Distributing was one of the premiere brown goods businesses in the Northeast and it was Great Central that precipitated Case Supply's transition from an industrial plumbing company to a kitchen and bath company.

Darlene was instrumental in that transition and has used her wealth of knowledge to direct over fifteen million dollars in sales of home improvement projects during her 30-plus year Case Supply career. Among her list of exclusive clients are Merle Builders, Artisan Plumbing, Charles Plumbing, and Michael May Construction. Darlene's designs and influence can also be seen in projects coordinated by Roseanne Smith Interiors and DKM Interiors.

In addition to her multi-million dollars sales portfolio and regular attendance at National Kitchen and Bath Association functions, Darlene has also been certified by a number of the kitchen and bath industry's select manufactures including Kraftmaid Cabinetry and Kohler Plumbing Fixtures.
