

## JOHN MORGAN

KITCHEN & BATH  
BARGAIN CENTER MANAGER

Since 1976, John Morgan has been one of the most valued members of the Case Supply family of employees. Beginning his Case career as a director in our logistics and material handling division, John eventually ran our warehousing and distribution center before being promoted to wholesale territory management in the late 1980s.

Because of his extensive knowledge of kitchen and bath products, John excelled in the wholesale sales division at Case Supply and grew his region to routinely over two million dollars in annual sales. When it came time for Case to construct a new physical plant that focused on builder grade material sales, John was our prime candidate to direct it's ultimate success.

Today, John's bargain center counts among it's clients Central New York premier property management firms along with countless satisfied contractors and homeowners. Currently offering some installation services and the lowest pricing on kitchen and bath products, John is poised to once again lead Case Supply into the next generation of home improvement products sales.
